

TREE PLANTATION

The SBSPM has had a long standing tradition of preservation of Culture, heritage and flora and fauna. In order to sensitize students towards the need to preserve our environment and ecology, tree plantation drives are organized in APIMR Campus.

On 16th Sep 2019 APIMR successfully completed the event of Tree Plantation at SBSPM Campus. Trees are the foremost source for producing the oxygen in environment, they helps to reduce the level of CO₂. As we all know that the whole world is facing problem of global warming and to recover from such problem planting the trees is become one of the most important aspects today.

The main aim of this drive was to spread and create awareness to protect the environment from degrading /global Warming. On this occasion our Director advice to volunteers to think differently for the society to make positive changes and to make improvement. After that total tree were planted by all others including teachers and students. All were happy and experience proud after the tree plantation event was finished, because it really feels great to do positive for the nature.
